

At JAVS, we believe that an accurate and accessible record helps create an open and transparent society. That's why for more than 35 years, we've provided scalable, court-specific digital recording solutions to courtrooms throughout the world. Our solutions enable courts to accurately capture, store, and publish the official verbatim record. From public address to remote arraignment, to open source access, JAVS promotes truth and accuracy by preserving the record for the future.

## Our solutions are preserving the record for tomorrow's justice system.

### Premier Line

Designed and developed to meet the unique needs of a **courtroom**, our Premier Line offers audio and video recording with very little interaction required. The Centro a/v processor, for example, boasts automatic audio and video switching capabilities, mutable a/v outputs, sound masking, and more.

### Select Line

Ideal for recording **lectures, meeting interrogations, and similar instances**, our Select Line boasts a range of high-quality digital recording components as well. This solution option is streamlined for small meetings and hearing rooms to deliver accurate and accessible recordings.

### Core Line

Portable, yet powerful, the Nimble anchors our Core Line. It delivers clearer and more accurate audio recordings in **virtually any setting**. The Nimble is slightly larger than a cell phone, but smaller than a tablet and still offers up to six channels of recording.

### Auxiliary solutions

JAVS also offers additional options for a total solution including:

- Evidence Presentation System
- Public address integration
- Remote arraignment via teleconferencing
- Assisted listening
- Hardware options including projectors, screens, and large displays
- Case management integration capability
- Live streaming
- Service and maintenance options
- Court transcription marketplace
- And more

Our Core, Premier, and Select lines offer hardware and software solutions capable of audio-only recording, full audio/video recording, and portable recording. **There's an option to fit your need.**

Created from an initiative to help courts become less dependent on court reporters, JAVS was first installed in a single Kentucky courtroom in 1985. Since then, Kentucky courts have saved an estimated **\$19.4 million annually**. Today, our products are integrated in over 10,000 courtrooms throughout the United States and 11 countries spread over four continents, including Mexico, South Africa, Namibia, Tanzania, Kenya, Tasmania, Malaysia, and Canada. Our solutions are succeeding in meeting rooms and lecture hall settings as well. Looking forward, JAVS aims to equip courts with the solutions necessary to create the ideal modern courtroom.
